

## Young People Planning Aid Sheet 1

### Introduction

Running an effective music program involves developing a clear understanding and shared goals between the young people, host organisation and tutors / facilitators.

### Recommended Use

This sheet is designed as an aid for 'workers' who have identified a group of young people and now wish to assess the group's musical interests and needs. We recommend printing out pages 2 and 4 of this document and then using the various questions as the basis of discussion start points. Record your findings on the sheets for future analysis.

### Further Planning

Kayto Sound is able to deliver a range of consultation sessions with young people. Please [contact us](#) to find out more.

### Evaluation Process and next stage

The information obtained from this planning will enable Kayto Sound to create and deliver an effective program for your young people.

Simply scan and [email](#), or post your results to Kayto Sound and we will recommend a few music programs that would suit your young people.

The next stage options:

1. Call us and discuss the results (01275 879200)
2. Carry out [further consultation](#) via additional sheets on the Kayto Sound website
3. Look into requirements from possible grants and funders

[Print: This section is used when consulting with young people]

1. What are your interests?

Type	Description	No. Young People
DJ	Beat mixing, Scratching and Juggling.	
Music Making	Create your own music. Create your own CD and even your own ring tones	
Drumming	The basics of modern drumming.	
Guitar	Learn all the classic riffs! Get playing electric guitar in a matter of minutes... or if you already play, learn new skills and techniques.	
MC	Writing and recording lyrics. Could involve performing live?
